SAN FRANCISCO A MASS OF RUINS

Unfortunate People of San Francisco Facing Starvation With Other Woes.

Horrors of This Situation May Overshadow The Work of Earthquake And Fire. Prices Of Food Soar Skyward.

Nothing Since The Burning of Rome By Nero Equals The Loss As It Will Finally Be.

Oakland, Cal., April 20.—Starvation today threatened to complete San Francisco's sinister trinity of affliction.

After two days and a night of terror such as no American city ever before has known, 100,000 persons who have survived the shocks of the earthquake and the fire which has burned for 36 hours, are now homeless, without food, and deprived of water. More than 200,000 others have been forced to seek shelter in Oakland and in the sections of San Francisco still free from the flames.

But the terror that has accompanied the destruction of the residence and business districts of the city is dwarfed by the famine that the half million people of San Francisco must face within a day or two. Although but 30 hours have passed since the fire broke out, bread is being sold for 75 cents a loaf, and ordinary soda crackers are bringing 10 cents apiece. Canned goods that could be purchased for 10 and 15 cents yesterday morning now bring \$1.50 and \$2.

A strange feature of the situation is the levity that obtains among the tent-dwellers. Everybody is good-natured, and no one seems to realize so far the actual magnitude of the catastrophe.

Men with blackened tongues hanging from their mouths, with eyes bloodshot and faces darkened by powder, left the frightful work in which they were engaged to thrust their faces into the streams from the hose and drink like animals a filthy precious water, apparently being wasted in gross extravagance upon the walls of doomed buildings.

The work of the fire-fighters was in vain. Roaring across the blocks of San Francisco's handsomest dwellings, the fire reached Van Ness street, and without pause leaped across it to sweep onward beyond the last defense that could be made against it.

THE DEATH LIST DOUBTFUL.

Oakland, April 20.—The death list runs from five to fifteen hundred and Rear Admiral McCalla wired the navy department that the first reports of loss of life were exaggerated. The city is still under martial law, three thousand soldiers and marines are scattered over seven square miles of territory.

The armored cruisers South Dakota and California, being constructed at Union Iron Works, escaped. The Presidio reservations is filled with refugees.

RELIEF FROM WASHINGTON. Washington, April 20.—A special train of 12 express cars chartered by the government, is speeding with supplies to stricken San Francisco. It left Washington early this morning, taking aboard stores collected here. An unobstructed right of way across the continent has been secured and the train undoubtedly will establish a record.

SYMPATHY FOR 'FRISCO.

London, April 20.—The great wave of sympathy in Great Britain for the sufferers from the San Francisco catastrophe would take a practical form on the slightest intimation that financial aid is necessary or acceptable. It is the general opinion, however, that the Americans will prefer to take care of the situation themselves without outside help.

Paris, April 20.—President Fallieres has telegraphed to President Roosevelt an expression of France's

most profound sympathy with the United States in the distress resulting from the earthquake in California.

Washington, April 20.—The German ambassador, Baron Speck von Sternburg, called on the president today and extended the condolences of the German emperor.

Rome, April 20.—The king has cabled to President Roosevelt his sympathy in the San Francisco disaster and Premier Sonnino and Finance Minister Luzatti have personally conferred with Ambassador White who today abstained from attending the races, a great social event.

DONATIONS GOING FORWARD.

New York, April 20.—Many liberal donations are going forward to San Francisco. Yesterday New York sent upwards of \$500,000. C. N. Mackey sent of this amount, \$100,000. John D. Rockefeller sent another \$100,000. The U. S. Railways Investment company sent \$75,000. M. Guggenheim Sons sent \$50,000. The Carnegie hero fund and John P. Morgan & Co., \$25,000 each. The New York Stock Exchange brokers \$85,000, while many \$10,000 and \$5,000 contributions made up the rest.

Atlanta sent \$5,000 and will follow it with more.

Indianapolis sent \$10,000 and will add to this.

Chicago sent \$75,000 and will treble the sum.

Memphis today raised \$10,000 and will increase the sum.

New Orleans today also sent \$20,000 and will swell the amount.

Goldfield, Nev., sent \$4,300 yesterday.

Many towns have added \$2,000 and \$1,000 to the fund and the whole will be several millions ere three days have passed.

All railroads are carrying all contributions free.

\$300,000,000 Loss.

Property exceeding \$300,000,000 in value is destroyed and the fury of neither flame nor earth apparently has been abated; surely not the fire, for it is burning at this hour with remorseless hunger; nor the anger of the earth for at 8 o'clock tonight the ground again rocked and swayed and was tossed about as if it were a balloon in the air.

The Shock At Honolulu.

Cleveland, April 20.—A commission firm here received the information that the shock at Honolulu lasted six minutes.

Not Town Near 'Frisco Escaped.

Oakland, Cal., April 20.—Not a town around San Francisco has escaped damage by earthquake, and the death list when it is completed will prove to be very large. Twenty vicinity towns are almost wrecked. In nearly all lives were lost, some large numbers.

Shocks Throughout Yucatan.

Merida, Yucatan April 20.—Several earthquake shocks here on the 18th caused a panic among the people. No damage was done.

Goes To 'Frisco.

Mr. S. C. Crawford, of Memphis, is in the city. He has a number of relatives in San Francisco and will leave for that city tonight, and requested The Sun to state that he would be glad to carry any messages for any Paducahans to friends in that city. He can be found at old phone 995.

Mr. Vaughan Scott is in the city.

FLEEING HOSTS STRUGGLE FOR LIFE

Two Hundred Thousand People Race From City.

The Suffering Is Intense—The People Fly to the Hills for Repose.

THE STORY OF AN INFERNO

San Francisco, April 20.—Probably 200,000 refugees are struggling to get out of the city and hourly the task is becoming more difficult as the fire and heat cut off avenue after avenue of escape. The streets are filled with struggling people, some crying and weeping and calling for missing loved ones. The sufferers are invading the few buildings that remain in the hope of finding something to eat. They only desist when warned or shot by soldiers.

The sufferings of many from hunger is pitiful. Thousands of people are sleeping on the hills tonight or standing gazing with grim faces on the lurid scene below. Women and children and little babies in arms are huddled together with the injured. In Golden Gate Park the people are all huddled together with hunger, gnawing hunger, the companion of all.

The Scope of the Ruins.

New York, April 20.—The Western Union is in receipt of a dispatch timed 5 p. m. Pacific coast time giving the area destroyed by the fire. It shows that practically all of San Francisco has been burned or is burning. Information was brought in by Sergeant Binkley, U. S. A., who said: "Everything out Market street to about Twenty-third is burning fiercely. Everything is gone except the mint. The postoffice was injured only by the earthquake. Every building of any importance in the city up to Van Ness avenue, including the entire business section and all hotels are entirely destroyed. In district north from Golden Gate avenue and lying between Van Ness avenue and Octavia street also has been burned. Chinatown is gone."

The fire is raging on Nob Hill. Parts of Nob Hill are entirely wiped out. The fire has crossed Van Ness avenue, east of Union street, and everything in that district is gone. Certain parts of Nob Hill are untouched, though very seriously threatened. Fire is raging around Union and Fountain streets with every prospect of continuing.

It now looks as if the entire city would be burned before the fire stops.

Already more than 5,000 persons are believed to have perished. Some are buried forever out of sight under the debris of huge buildings that were shattered by the convulsions of the earth. Hundreds have been burned into ashes. Exactly how many have been wounded will take days to determine.

Mr. Vaughan Scott is in the city.

THE FIRE IS NOW UNDER CONTROL

Flames Made Terrific Progress During Night, However.

Secretary Hitchcock Goes to San Francisco to Represent Federal Government.

SUPPLIES ARE ARRIVING NOW.

Oakland, Cal., April 20, 2 p. m.—The fire is now under control at Octava street and confined to the district adjacent to Telegraph Hill.

Throughout the night, however, the flames made terrific progress, carrying everything before them relentlessly in a swing from Jefferson square to Presidio.

General Funston reports to Washington that the fire is partially under control and that part of the city north of Market street may probably be saved.

The weather continues fine. The supplies that are being rushed from all quarters are at last arriving, which will in a measure afford some relief.

HITCHCOCK LEAVES FOR FRISCO.

Washington, April 20.—Secretary of the Interior Hitchcock will leave tonight for San Francisco to represent the government in rendering aid to the unfortunate people.

EARTHQUAKE AT HONOLULU

London, April 20.—The news of the shock at Honolulu has been confirmed. The shock did no damage, however, only a few houses being wrecked.

YESTERDAY'S SHOCK.

Oakland, April 20.—The slight tremor which shook the coast yesterday afternoon did no damage.

KILLED WIFE AND SELF.

Double Tragedy in Ohio Prompted By a Divorce Suit.

Columbus, Ind., April 19.—Jesse Davis, aged 35, shot and killed his wife, aged 33 years, and then killed himself with the same revolver. The two had been separated for six months and yesterday Davis learned that his wife had applied for a divorce. He found her at the home of her aunt, Mrs. Conrad. The two were together in a room but a few minutes when the two shots were heard and the dead bodies found a moment later. Three sons, aged 10, 12 and 14 are left.

Life of 104 Years Ends.

Harrodsburg, Ky., April 20.—The funeral of the Rev. David Bruner, a well-known Baptist minister, died Monday at the age of 104 years.

Four Fifths of Once Beautiful City Is One Great Black Heap Today.

Story of The Great Fight With Unconquerable Elements Challenges The Ability Of The Pen To Tell.

Every Effort Is Being Made To Allay The Sufferings Of The Homeless And Desolate Hosts.

CANNONS TURNED ON FINE RESIDENCES

In an Effort to Check the Sweep Of Devouring Flames.

Once Handsome Homes Sacrificed As a Last Offering to Mad Elements.

STUPENDOUS, APPALLING SIGHT

San Francisco, April 20.—In a final effort to check the devouring sweep of the greedy flames the handsomest of wealthy people of this beautiful city were offered as a sacrifice to the cannon, as the only hope of saving the western addition, with its forest of frame dwellings and the Richmond district with its thousands of homes was to check the fire at Van Ness avenue.

This avenue is 90 feet wide and the possibilities of checking the march of flames here looked hopeful. Orders were given to concentrate every fire engine in the city at this avenue and to marshal troops of soldiers, police and all the army of workers and make one last stand to save the remainder of the city. The co-operation of artillery was secured and huge cannon drawn to the avenue by military horses to aid the dynamiters in blowing up the mansions of millionaires in order to prevent the flames from leaping across the highway and starting on their unrestrained sweep across the western addition.

Every available pound of dynamite was hauled to this point and the sight was one of stupendous and appalling havoc, as the cannon were trained on the palaces and shot tore into the walls and toppled buildings in crushing ruins.

At other points dynamite was used, and house after house, the dwellings of millionaires were lifted into the air by the power of the bellowing blast and dropped to the earth a mass of dust and debris. There seemed to be an irresistible power behind the flames that even the desperately heroic measure taken at Van Ness avenue could not stay.

While the fire fighters were making the stand at Van Ness avenue the panic among the survivors in other parts of the city from the intense heat and the absence of water has been so terrible that scores have become frantic and others have dropped from exhaustion in the streets. In the panic many mad things are being done. Even the soldiers were obliged in many instances to prevent men and women made insane from misfortune, from rushing into doomed buildings in the hope of saving valuables from the ruins. In nearly every instance such action has resulted in death to those who tried it.

Bryan Visits Egypt.

Alexandria, April 20.—William J. Bryan, who is touring the world, left Cairo for Luxor Wednesday night. He will start from Cairo Saturday for the Holy Land.

San Francisco, that, a few days ago was merry with music and glad and responsive to song and play, has come to be as if she had suddenly been immersed in the very damp of death. It has been one awful, heart-rending, indescribable scene all the cruel night and day. Flash after flash has been interspersed with the bellowing, brutal powers that exposed not hand that human power might grasp at to hold, to check—to even see! The vanities of mankind, which, in health and under smiling skies, was pompous and arrogant with a claim and fashion were pitiable to behold tonight—helpless, awed, terror-stricken.

The pride of the Pacific coast is as a city that never was. San Francisco is a wreck. The two terrible earthquake shocks that razed hundreds of buildings scattered death, suffering, horror, from one end of the town to the other. It is a city of death. The estimate of the number killed runs from 2,000 to 5,000. The faintest idea cannot be formed of the number of injured. It will run into the thousands. Where Tuesday night the city of the Golden Gate rose its head in pride high above the surrounding hills, tonight, San Francisco is in the dust—a city of debris.

A thousand pens and pencils could not begin to describe the wreck, the carnage wrought by nature, the utter devastation, the desolation, the woe and anguish that cover the smoke-enveloped city of the coast. In hundreds of places the flames still roar sullenly while thousands fight to check the onward sweep of destruction.

Added to the crackling of the flames the noise of the crumbling buildings, the screams of maddened throats, the cries of fleeing children, have combined to make a picture that yet is being flashed red upon the real canvass of San Francisco habitation.

Oakland, April 20 8 a. m.—The sun rose on the ashes of San Francisco this morning. Two-thirds of the business district has been devastated, and the flames are pushing forward with a determination that seems irresistible.

The aristocratic district of the city, as well as the tenement house district of the city, has been wiped out. Every block in the city except those on streets between Golden Gate park and Webster street has been wiped out.

The fire, which heretofore had crept around the base of Telegraph Hill, left but few houses standing; there and crept back from West. It is now in full possession of the houses on the Hill and will no doubt burn to the water's edge. The main fire has reached Octava street, going at a fast rate. At midnight it had started afresh on South street burning fast. Ferry buildings present a pitiable sight. All people are leaving the city by the first boat on which they can get away.

New York, April 20.—The following bulletin was received by the Western Union today: "General Funston has given out a thousand tents to the unfortunates and done everything to relieve the suffering. People in the parks were fairly comfortable last night, but heavy fogs and dew caused distress. Ten thousand homeless people are flocking to Oakland and other towns across the bay. There is much suffering for want of

food and water."

Oakland, Cal., April 20.—Nothing since the burning of Rome by Nero has equalled the loss that San Francisco has suffered.

The custom house and the bonded warehouse are the only buildings left in San Francisco in the district bounded by Water Front, east, Franklin street, west, Broadway, north, Folsom on south.

The fire is still raging without the hope of saving any buildings east of Golden Gate park.

All the banks, hotels, hall of justice, city hall, are gone.

Oakland was damaged from the earthquake only. The water supply is all right here and there is no danger of fires.

No Damage at Los Angeles.

Los Angeles, Cal., April 20.—At 12:33 Thursday afternoon Los Angeles experienced a distinct earthquake shock but of short duration.

Absolutely no damage was done, but the people were badly frightened. Occupants of office buildings ran into the streets, some hatless. Many stores were deserted in a hurry by customers and clerks.

The shock, however, passed off in a few minutes and most of those who fled returned presently.

A Michigan Spasm.

Calumet, Mich., April 20.—An earthquake shock which was felt distinctly throughout Hancock county and was the most pronounced in the Quincy mine, killed one man and injured four others while working a mile below the earth's surface in that property Thursday.

Buildings rocked, chimneys fell and dishes rattled terrifying citizens and causing scores of men, women and children to rush from their homes.

Judge Lightfoot Talks.

County Judge Lightfoot has probably the most practical explanation of the cause of the earthquake. He explained his theory this morning in the presence of newspaper men.

"I don't care what the people say about the Almighty God sending this terrible disaster to the people. It is not the fault of the Creator, but simply an action of nature pure and simple. The Supreme Being stated in the New Testament that the hand of God would not be seen again until the end of the world—Judgment Day—and that nature, with her own laws, would proceed untouched by the Creator. This earthquake is simply an action of Mother Nature; a result of some natural action on the part of the earth. What it is we cannot explain, we cannot tell, but we know that it is the result of natural laws governing the earth."

New Hotel Project.

Memphis, April 20.—J. T. Morgan, C. L. Warren and J. D. Jack propose to erect the largest hotel in the world. It is to occupy a lot only 44 by 148 feet, but will be 28 stories, three below the surface and 25 above ground. The structure is to cost \$1,000,000 besides its furnishing. A stock company is to be behind the enterprise.

Famous Frenchman Killed.

Paris, April 20.—Prof. G. discoverer of radium, was killed and killed by a wagon Dauphine yesterday.

Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatments for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and restorative ever discovered to act directly upon the female system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Any way write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

Vesuvius Again Vomiting Ashes.

Naples April 20.—Volcanic ashes are again falling at San Annunziata, Somma and Gerocla in such quantities that the inhabitants who had returned to their homes have been obliged to leave again. A strong wind becoming almost a tornado prevented the departure of the British squadron which had been anchored in the Bay of Naples.

Malaria Makes Pale Blood.

THE COVERED LOSSES.

Insurance At Risk Is Estimated At \$250,000,000.

Chicago, Ill., April 20.—Fire insurance companies had about \$250,000,000 at risk in the city of San Francisco, the estimate being based on the premiums received in 1905. For years the Pacific coast has been the one section of the country which could be depended upon for a steady profit year in and year out. San Francisco has been the best profit-producer of the coast. Its loss ratio for a period of years has been the lowest being less than 25 per cent of any city in the country, despite the unusual proportion of frame construction. As a result of this unusually favorable experience rates were low in that city, and all the fire insurance companies wrote very liberally.

Several foreign companies that are never heard of in the east are large writers on the Pacific coast. The Rhine and Moselle had nearly \$5,000,000 at risk in San Francisco, standing eighth in the list in order of amount. There were 105 fire companies doing business in California last year. The Firemen's fund, which is the leading fire insurance company of San Francisco, stands third, its premium income in the city last year being \$77,608, while the Home, fire and marine, owned by it, had \$31,103. Local insurance men estimate tonight that the two companies had over \$8,000,000 at risk. The Hartford had \$72,236 in premiums and the New York underwriters, owned by it, had \$77,552, making a total risk of over \$12,000,000. The California fire, which only resumed business last year, had premiums of \$22,585, and the Pacific underwriters had \$20,632.

RAILROAD NOTES.

An I. C. Shop Apprentice Has a Hand Cut.

Mr. Luther Long, an apprentice boy in the local I. C. tin shops, was badly cut yesterday afternoon while handling a heavy sheet of tin. The corner of the metal struck his right hand and severed an artery. The wound bled profusely for some time. The cut was dressed at the hospital, and will disable the young man for several days.

Mr. J. F. Bailey, night watchman for the local I. C., is off duty ill of pneumonia. His wife is also ill and his son has just recovered after a several weeks' spell of illness.

Steam shovel No. 31 which has been in the shops for repairs, was fitted out today and set to work loading coal which was stored in the shop yards a few weeks ago as a precaution against a coal miners' strike.

PRACTICALLY CONDEMNED.

Caldwell Avenue Bridge Not in Use By Street Cars.

City Engineer L. A. Washington went out yesterday and inspected the last bridge en route to the depot on Caldwell avenue, and pronounced it unsafe. Street cars were restrained from use of the bridge, and hacks and wagons are not permitted over the bridge at a faster gait than a slow walk. The dirt has slipped and the post work of the structure is very weak. This will necessitate the substitution of a concrete arch at once, the work to start as soon as the material can be secured.

WHY HE DOES IT.

"It isn't often that we have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure," said Druggists Lang Bros. to one of their many customers, "but we are glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan."

"The Howard Co., in order to get a quick introductory sale, authorized us to sell the regular 50-cent bottle of their specific for half-price, 25 cents, and, although we have sold a lot of it, and guaranteed every package, not one has been brought back as unsatisfactory."

"One great advantage of this specific," he continued, "is its small dose and convenient form. There are 60 doses in a vial that can be carried in the vest-pocket or purse, and every one has more medicinal power than a big pill or tablet or a tumbler of mineral water."

JOHNSTONE BENNETT DIES.

Stage Favorite, Noted for Mannish Attire, Passes Away.

New York, April 20.—Miss Johnstone Bennett, the actress, who had made Bloomfield, N. J., her home for about seven years, died a day or two ago of tuberculosis. She was ill for two years. She began her stage career when 19 years of age, playing with Richard Mansfield. One of her greatest successes was in "The Female Drummer." She appeared also in vaudeville.

Miss Bennett was born in Havre, France, 36 years ago, and was the daughter of Wm. H. Valentine Cronise. Her mother died at her birth and she was adopted by Miss Mary Bennett. When the latter died the girl was again adopted by Sibyl Johnstone, the actress. At the death of Miss Johnstone Miss Bennett assumed the name of Johnstone Bennett.

Miss Bennett gained notoriety for her penchant for wearing mannish attire, both in the street and on the stage, and also by the fact that she

retired from the stage for more than a year and established a haberdashery business in this city. She also desired that there be no flowers or coaches at her funeral, and her wish was carried out.

Has Compromised Damage.

Contractor George Katterjohn is rebuilding the east wall of the "Unique" restaurant on Broadway, which collapsed last week because of excavations he made to the founda-

tion. The proprietors, Messrs. Hawkins Brothers, have compromised the damage with the contractor, and will not go into litigation.

The accident proved unfortunate to the popular contractor, whose profits on the contract he is now performing, will be cut down considerably by the damage to the restaurant.

PLACING POLICE

CHIEF COLLINS WILL OBEY ORDERS OF COMMISSIONERS.

This Means He Will Take Off One Man At The Depot and On Broadway.

Chief of Police James Collins says that he will in a day or two re-arrange the police force in assigning beats, and would follow to the letter all instructions from the board of fire and police commissioners.

Chief of Police James Collins is in a very delicate situation, and his many friends will watch his work with interest. Chief Collins was elected to the office by a majority vote in the board of commissioners and is expected to follow the inclinations of the majority of the board. He was absent from the city when the board met and decided to take off three officers and two detectives, and was not acquainted with what was expected of him. He stated in an interview that he intended to place the men to the best advantage for the public's welfare and from experience had learned that the depot and Broadway beats needed all the policemen he could put on them. He has changed his mind, clearly, for he states that he would have to follow the orders of the board which are mandatory being the governing body and he a subordinate.

"I will have to follow the instructions issued by the commissioners," he stated. "I had not looked into the matter thoroughly when I returned from Hot Springs, but find that the minutes of the meeting require a policeman off the depot and Broadway beats; so I will have to take them off. I am sorry this ordinance was passed. I am sorry that the force was cut. We were doing well, policing the city excellently and now we are handicapped. We really do not need 30 men on the force because we can patrol the city with a lesser number."

Chief Collins stated that he would make the change in a day or two, but there promises to be "more to come" when the commissioners meet again. It is understood that Commissioners Sutherland and Gilbert stand alike in the matter of assigning officers on the Broadway and depot beats, favoring the regular double shift, and there may be changes made at this meeting.

Will Resell Property.

Mr. Milton Sanchez, of the Paducah drummer who this week bought a valuable piece of property in Cairo, stated last night that he probably would not engage in the banking business, as contemplated, but would sell the property, having received several good offers. He believes he can make \$500 in reselling, and stated he bought the property on speculation principally, but did have the idea of establishing a savings bank.

Wheel Came Off.

The left side wheel on the rear of Mr. Claude Russell's No. 1 milk wagon came off early this morning between Fourth and Fifth streets on Broadway. The rear of the wagon dropped down to the ground, but the damage was light. The wagon proceeded when the nut was replaced and tightly screwed to the axle.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for woman's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist if this is not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through druggists for domestic use can show any such professional endorsement. This, of itself, is of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of the alcoholic compounds.

The "Favorite Prescription" cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal examinations are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of mailing only, or 21 cents for a copy in flexible paper covers, or 31 cents for a cloth-bound copy. Address Dr. R. V. Pierce as above.

Dr. Pierce's Pills regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

BATTLING ON

THE DIAMOND

The Evansville "Germans" vs The Paducah Indians.

Opening Game of Series of Three on With Many Hopeful Fans Present.

OUTSIDE BIG GAMES, ETC.

The Evansville baseball team arrived in Paducah this morning on the Steamer Joe Fowler and is this afternoon playing the first of a series of three games with the Paducah Indians, pennant aspirants in the Kitty League. The Evansville team was successful in three games with Vincennes, Ind., also a member of the Kitty League, and the games here will test the comparative strength of the Indians.

Manager Harry Lloyd stated that he would give the visitors "all he had," and judging from the way the team has shown up in the work out games the Germans will not have a walk over by any means. The Paducah players have worked but little and are sore. Haas had not played before Wednesday and Wetzel is still sore in the legs. The entire team is not in good shape, but will give the visitors all the hard playing they can take care of.

Paducah's pitchers are in good shape, the soreness having left their arms. They have been working hard and all have good control. Wilgus and Ames will lead off in box work today and will be followed by Fred Miller, Brahe or Hedges tomorrow. Hedges is working out with the Indians. On Sunday Big Tadlock, who the fans think will "set the league on fire," with Weldon South will work against "Buck" Freeman who was developed in the Paducah Indian team two seasons ago.

A Few "Fielders."
"Rube" Chenault tried catching again yesterday. A foul tip caught his sore hand and caused the Big Man to get out of the game. He will be able to play today, it is thought. Chenault's finger nail on the third finger, right hand, is loose.

Jimmie Connors or Eddie Taylor may work behind the bat if Chenault cannot handle the big mit this series.

M. Miller, the fielder, showed up mighty well in practice work yesterday.

The team has been working for a batting eye. Very few players show up weak with the stick.

The grounds are not in very good condition. The fresh rolled infield has been plowed up by spikes, and makes it bad for grounders.

Some Outside Notes.

Frank Belt has "fixed" it up with Vicksburg, as the following from the Cairo Bulletin will show: Frank Belt, the Jacksonville manager, has fixed up the trouble with Vicksburg and will be allowed to remain at Jacksonville. Vicksburg had Belt dead to rights as he was under contract to play there and he got out of it only by giving Vicksburg Hagel, one of the most promising men, as a substitute.

The following from the Cairo Bulletin shows that Marre is still among the living. "Angelo Marre in a letter from Little Rock received yesterday by Mr. McCarthy stated that he

and his wife have been very sick, but both are now convalescent."

The following will show the work of the Danville bunch since it began playing exhibition ball:

The Pure Food Law.

The passage of the national pure food law being almost assured, consideration of its probable effect is general. The measure is necessarily negative, because officials can effect little without public co-operation. The measure as it stands is aimed not so much to punish manufacturers as to enable the people to know what foods are fit and what unfit for consumption. In other words, pure food will not be generally eaten unless the American people take enough interest to discriminate and to buy the good in preference to the inferior. Right here is where the manufacturers of and dealers in impure food may defeat the purpose of such legislation by offering, as they easily can do, impure products at a price below the reach of producers of pure articles. Impure food may be sold at a profit at less than the cost of pure food and unless, after the effect of the bill has become general, a majority of the people are willing to pay the difference, impure food still will constitute a large proportion of the American consumption.

SPLIT ON BILL

DEMOCRATS ARE APART ON THE RAILROAD RATE BILL.

The Late Conference Developed There Was No Union of Action Possible.

Washington, April 20.—With considerable ill-feling and no agreement on any phase of the controversy on the railroad rate bill, a conference of democratic senators, which continued practically all day Thursday, was adjourned without any date having been fixed for another gathering.

Speeches were made counseling an agreement on some amendment or to support the house bill without amendment, party harmony being urged as judicious politics. This program tentatively was adopted. Senator Bailey then called from the room some of the supporters of his amendment for a limited court review, and for non-suspension of orders of the interstate commerce commission. During their consultation a motion to adjourn was made by Senator Raynor and carried.

When Senator Bailey and his colleagues returned they found the conference broke up. The Texas senator protested hotly against the course. The general expression of opinion, however, was that the differences would be smoothed over, and that within a few days another effort would be made to get the minority together.

The principal differences in the conferences were precipitated by a speech made by Senator Bailey that his court feature provided for a limited review. Exception was taken by his colleague, Senator Culberson, who declared that it was a broad review, and from this point the discussion passed to the several pending amendments to prevent restraining orders being issued to interfere with rates established by the interstate commerce commission. It developed that a majority of the democrats would vote for an amendment of this character. Several senators said after the adjournment of the conference that if it should be decided to invoke the party caucus, to bring about an agreement it would result in the minority supporting the house bill without amendment.

MYSTERIOUS CAVE.

Near Decatur, Ala., Which Is Said to Be Belching Smoke.

Decatur, Ala., April 20.—Since the appalling earthquake at San Francisco, California, a most peculiar phenomenon has been witnessed at Fennel's cave, four miles southwest of this city.

Great volumes of smoke can now be seen issuing from the cave, but what causes it, or where it comes from can not be ascertained. This is the first time that smoke has ever been known to have issued from it and as a result many negroes and other superstitious people are very much alarmed over the matter.

The mouth opens at the foot of a hill, and the cave extends for several miles back under the mountain. Its full length is unknown, as it has never been thoroughly explored. Many legendary stories are related of this cave and many people of a superstitious turn of mind have an utter horror of the place.

It is related that many years ago the Indians had a chest of gold buried in one of the rooms of the cave, and that one day a desperate fight took place between the Indians who were guarding the gold, and a party of whites. Several whites and Indians are said to have been killed in the engagement, but the Indians finally won, and, as the story goes, the chest of gold is still in the cave. But no one dares go near it, for it is guarded by the spirit of a departed brave who wards off all who attempt to take the treasure.

There is still another story that the cave was the hiding place of John Murrel, the noted outlaw, in his palmy days of plunder and murder. It is said that years ago several human bones washed out of this cave during a heavy flood, which were believed to have been those of Murrel's victims of years before.

The Tenth Street Christian Revival.

There were six additions to the Tenth street Christian church at the service last night, making a total of twenty since the meeting began last Sunday. Rev. J. W. Hudspeth preached a strong sermon last night on "The Grace of God." Service each evening at 7:45. The excellent music is an attractive feature of each service. Tonight the sermon will be "What Is Genuine Gospel Faith?"

Ticket Case Here.

The ticket case, standing over six feet in height, for the city ticket office, local I. C., arrived this morning and was installed in the down town office. This is all that delayed the ticket business in the city office. Tickets have been sold but at a great inconvenience.

Beautiful Paducah

Brunson's Rebuilding Sale of Plants is a success; get your orders in soon.

In the British Museum are books written on oyster shells, bricks tiles, bones, ivory, lead, iron, copper, sheep skin, wood and palm leaves.

ANOTHER fact which endears WEILLE to the people of this community, and has helped to make us great, is our thoroughly cosmopolitan character. The man with \$10 to invest is just as welcome here as the man with ten times the amount. And we have provided for the \$10 man just as well and just as carefully as for his more aristocratic neighbor. And the man with \$10 to spend gets just as good value for his money as the man who has \$100; better value, by the way, than he can possibly get at any other store in this country.

Correct Wear for Spring

Gray predominates, of course, but business men are running also to blue serges, tweed plaids and other mixed fabrics for business wear. Some of these are exceedingly striking and in most cases the patterns are exclusive. Buy gray or mixed, prices run the same

\$7.50 to \$40.00

Fancy worsted trousers, in new gray stripes, sewn with silk, \$3. Better grades up to \$10.

The prominent feature of our clothes display is the handsome product of the Canterbury System, makers of hand-tailored ready-to-wear clothes. The workmanship on Canterbury garment is superb in every little detail and there is no custom tailor in existence whose best work surpasses it. Canterbury suits

\$20.00 to \$40.00

At Weille's this spring you will find a display of furnishing goods which is unique—unique in its beauty and exclusiveness. Easter has come and gone and now the small, but important, details of dress demand your attention; don't neglect them. In our store the selection of furnishings will be a pleasure to you instead of an effort. We have the most effective stock which a search of the world's best markets could afford—shirts, hats, neckwear, hosiery, handkerchiefs, the swellest things in great profusion.

WE ARE THE HOME OF BOYS' WEAR

MOTHERS and fathers who know WEILLE never think of going elsewhere for the youths', boys' and children's clothing. Why should they? It is the only house in Paducah that can or will carry a complete display of all the good lines made in America. And the whole second floor is necessary for this showing.

Boys' knee pants suits, ages 6 to 17, fine chevrons, tweeds, cassimeres and worsteds, well made, \$5 to \$10

Fine grade youths' suits, ages 15 to 20, hand-tailored serges, tibets and unfinished fabrics, decidedly new and smart, \$5 to \$20.

Attention is called to our exquisite showing of little children's novelty suits, in Russians, Rtons, Sailors, etc., combining beautiful colorings and shades and splendid workmanship, prices \$2.00 to \$7.50.

Youths' and boys' hats, all the nobby styles, \$1.00 to \$2.50.

Newest novelties in children's straw hats and wide brim fine Milan sailors, 50c to \$2.50.

Boys' and girls' novelties in Tam O'Shanter, all rich and new, 50c to \$2.00.

Youths' and boys' shirts, in many new lines, plain or plaited fronts, 50c to \$1.50.

Handsome assortment of youths' and boys' fine silk neckwear, all styles, 25c to 50c.

Boys' fine negligee blouses, white and colored madras, collars attached or neckbands, 50c to \$1.00.

Food For Thought.

(From Frankfort Journal.)

The following from President Roosevelt's "Man with the Muck Rake" speech set the plutocrats of the senate and others to thinking. It is the most noteworthy of its utterances: "As a matter of personal conviction, and without pretending to discuss the details or formulate the system, I feel that we shall ultimately have to consider the adoption of some such scheme as that of a progressive tax on all fortunes beyond a certain amount, either given in life or devised or bequeathed upon death to any individual—a tax so framed as to put it out of the power of the owner of one of these enormous fortunes to hand over more than a certain amount to any one individual; the tax, of course, to be imposed by the national and not the state government. Such taxation should, of course, be aimed

merely at the inheritance or transmission in their entirety of those fortunes swollen beyond all healthy limits."

ALLOWED ACCOUNTS.

Board of Aldermen Holds Brief Session Last Night.

The aldermanic board met in regular session last night but transacted no business except the passing of the finance report. President Starks and Alderman Chamblin were absent, and on suggestion of Alderman Earl Palmer, who was made temporary chairman, the meeting was adjourned until a full membership could be had.

The finance committee's report for bills, salaries, etc., amounting to a total of \$3,887.74, was passed and adjournment ordered. Another meeting will be held some night next week.

FREE Wiggle-Stick

This ad is worth 5 cents, cut it out and take it to your grocer; he will give you a 5c Wiggle-Stick FREE. We will give one free to every woman in America to convince her it is the best and most convenient form of Wash Blue Soap. Won't freeze, break, spill. Ask your Grocer to get it.

It makes Ironing easy. Costs 5c and lasts many weeks. Ask your Grocer to get it.

TO THE GROCER: We will redeem this for its face value of 5 cents if received by you in payment for a 5c Wiggle-Stick, or in half payment for a 10c stick. LAUNDRY BLUE CO., 14 Michigan St., Chicago

Daily Thought.

"Great convictions make great

characters, great lives."

SAN FRANCISCO THAT WAS—

THE NEW SAN FRANCISCO.

The latest news from San Francis-

co but adds to the horror of the fate

that has befallen it, and moves more

deeply, if possible, the sympathies of

a warm hearted nation.

The city, one mass of ruins, the

burying ground of hopes, of fortunes

and of innumerable people, is first in

the minds of the world today.

But out of this abyss of wreck, ruin

and desolation, of hopes dissipated

like showers before sunshine, of for-

tunes offered as a sacrifice to the mad

elements, there comes the ray of

light that bespeaks the dawn of the

new day, the turning to thoughts of

rebuilding a once beautiful city.

Everything seemingly gone the peo-

ple are still possessed of that energy,

that optimism and enthusiasm that

built such a structure in such a short

space of time, and, Phoenix-like, a

new city must arise from this mass

of ashes and debris.

Not awaiting the abating of the

greed of the elements, the work has

started, and a sympathetic world,

with generous offers of aid in any

form, will render every possible as-

sistance.

San Francisco, like Chicago, Balti-

more, and other stricken cities, will

rise again more glorious than ever

but ever mindful of the terrible inci-

dent of its life.

A CENTRAL PARK.

The movement started by the Del-

phic and Magazine clubs to have the

property bounded by Broadway,

Washington, Ninth and Eleventh

streets condemned and purchased by

the city and converted into a park is

an excellent one, and it is hoped will

prove a successful one.

This is the first step in the civic

work that these clubs have had in

contemplation for some time, and it

will meet with the hearty and sub-

stantial approval of many who have

realize that the best parks are those

in the heart of the city,—within

walking distances for the people

who will use them.

A park should be located on the

site herein suggested, and one in

the north end, and one in the south

end of the city. When this is done

we can then consider the establish-

ment of a rustic park in the country,

but just now the proposition to lo-

cate the parks where the people can

get to them without having to use

the street cars or vehicles will appeal

to most people.

The Sun is for the location of the

first park on the site proposed.

SCHOOL ATHLETES.

High School Boys Want to Form a

League.

Saturday morning the Paducah

High school baseball team will play

the first match game of the season

with the Lone Oak Kentucky College

team. The game will be played at

Wallace park grounds and the bat-

tery for the local team will be Reuben

Bagby and Salem Cope. The battery

for the visitors is not known.

The athletic department of the

High school is arranging the forma-

tion of a school league between

Cairo, Metropolis and Paducah, and

double-header games will be the

only kind played if the league is

formed. The Cairo High school

team wants to play Paducah and Me-

tropolis on the same day, one team

in the morning and the other in the

afternoon. It has been suggested

that the Paducah and Cairo teams

be treated likewise in Metropolis,

this kind of arrangement proving

more of a drawing card than a single

game a day would.

Correspondence is still being car-

ried on between the three towns, and

it is likely that some sort of agree-

ment will be reached within a short

time.

The High school tennis club has

begun spring practice in the courts

back of the High school building.

Tennis will be a popular game this

Paducahans Quickly Respond
To Call For Aid For Frisco.

The destruction that wasteth at noon-day has come upon our land and one of its greatest and fairest cities is in ruins,—thousands of its citizens are dead or dying, and hundred of thousands swept from ease, affluence and happy homes into the blackness of darkest, direst want, in one awful moment. Nearly half a million people are today viewing the ruins of their homes and fortunes, homeless, starving beggars. Horror adds to horror, as the magnitude of the greatest disaster of the century develops. Far beyond San Francisco, up and down that beautiful, prosperous coast country, fair and smiling, even as the garden of the Lord, the besom of destruction swept on. Ten thousand dead, five hundred thousand homeless and helpless, a billion dollars in property destroyed—and so the figures rise, till no mind can conceive the hell that has engulfed California. But, no impassable gulf divides us from those unfortunates, literally suffering the torments of the deepest pit; no inexorable law forbids our aid. All that Paducah can spare is needed, and every instinct that redeems men calls us to give quickly and liberally. The Sun has already started the relief movement, and will gladly act as the medium for promptly forwarding contributions to the authorities of the stricken region. In the name of our common humanity, we appeal to the people of Paducah, who have been signally spared from pestilence, storm and earthquake for instant, generous answer.

The responses to The Sun's call for aid have been prompt and generous, and today, already, some of the money raised has been dispatched to the stricken city.

In a time like this, our purse strings should be opened with a quick, eager hand.

Following are the contributions to date:

The list follows:

TOM LYNN ACQUITTED.

Released Today at Kansas City of Killing Bert Amoss.

At Kansas City today Tom Lynn, son of Mr. Enoch Lynn, who last year in a difficulty at the race tracks near that city, killed Bert Amoss, a track associate, was acquitted of the charge under which he was indicted and is free again.

It will be recalled that the slayer and his victim were both race riders and that they were the best of friends but in a scuffle they became angry and Lynn hit Amoss with a stick, and the blow so injured him that he died almost instantly. Lynn was arrested and held for killing Amoss, but was able to give bond the killing being regarded as an accident. Today's court action resulted just as he always said it would, in acquittal. The young man and his father have many friends here who will rejoice with them over the son's release.

THE INTERSTATE MEETING.

More Pressure Brought to Bear to Effect a Postponement.

Strenuous efforts are being made to effect a postponement of the big interstate Odd Fellows' meeting from April 26th to May 3rd, and today a meeting will be held here by members of the association for the purpose of finally arranging the matter.

At a meeting Wednesday night the local lodges decided that a postponement would be impossible, but today Mr. H. H. Batson, of Carbondale, Ill., a prominent Odd Fellow, arrived to further urge the postponement in the name of the president.

Most of the interstate association officers are here, and the interstate association is the only body which can legally order a postponement. An effort will be made this afternoon to have a meeting of the association officers, all members being there, it is understood, except the president, and finally decide the matter.

A Suspicious Case.

The police this afternoon were advised that a white woman had died near the mouth of Clark's river this morning and that she was unattended by a physician and that there were bruises on her face which were not accounted for. The matter was referred to Coroner Eaker and he has gone to the locality specified to investigate. An investigation by telephone could develop no additional facts except that the woman's name was Webber and she lived on a shanty boat with her husband, who is a fisherman.

Held for Investigation.

The Memphis Commercial-Appeal of this morning says: Frank Page, a baker, who claims Paducah, Ky., as his home, was arrested yesterday by Detective Chiles and is locked up at the police station. The prisoner is being detained pending an investigation.

YOU DON'T HAVE TO WAIT

My eye makes you feel better. Laz-Poc keeps your whole "vision" right. Sold on the moon's back place everywhere. Price 5c.

THE TOWN COW

MAYOR'S RIGHT TO SUSPEND THE LAW IS QUESTIONED.

By Both Judge Lightfoot and Attorney Bagby—Why They Are Talking.

County Judge R. T. Lightfoot threatens to bring criminal action against the city officials for neglecting the enforcement of the stock law. He was in anything but a very mild mood when a Sun reporter called this morning.

"You say in your paper that I intend to institute proceedings in the criminal courts—get warrants—against city officials for failing to enforce the cow law," he declared. "Yesterday I had the fence removed from about the court house and planted flowers and plants. This morning I find that cows came in last night and ruined many of the best flowers and plants."

"Mayor Yeiser had no right to suspend the enforcement of the ordinance. It could have been legally enforced until proven invalid, and this was never done. Had the appellate court decided the ordinance invalid the measure could have been enforced until that time. It is like in the case of criminals who are presumed to be innocent until proven guilty. There was no necessity of suspending the stock law, and the court house yard is nearly ruined as a result. There are other yards in Paducah which have been treated just as badly by cows, and if something is not done at once without further delay, I shall get warrants, and I mean it, too."

President E. W. Bagby, of the library board, who drafted the ordinance, stated this morning that he did not see why the mayor suspended the enforcement of the law. "He had no right to do it at all," President Bagby declared, "and why he did it remains to be explained. The residents had plenty of time to make provisions for the enforcement of the law. There was no necessity of waiting. They might just have kept their cows locked in, and the law will be enforced."

The law is supposed to become effective Monday, and all cows caught roaming at large will be arrested.

—Willis Holman, of 407 South Fourth street, was removed to Riverside hospital in the Nance ambulance yesterday. He is ill of malarial fever.

MEETS TONIGHT

CHAUTAUQUA ASSOCIATION IS TO MEET PROMOTER SHAW.

Expected That Program Will Be Arranged and Speakers Named for the Occasion.

The Chautauqua Association is to hold a meeting this evening in the Commercial club rooms. Mr. James Shaw, who is to promote the affair, is expected to be present. The association is to meet to perfect all arrangements for the gathering, which is to occur during June. At the meeting the preliminaries for the gathering will not only be made, but the promoter will announce the list of speakers for the six days' meeting and all other parts of the program be decided upon.

President Bleecker, of the local body, wants all those interested in the Chautauqua to be present.

Three Chautauqua gatherings are among the most important events in all intelligent communities and never fail to attract large attendances and to profit them greatly. Promoter Shaw promises the local association some very learned speakers to address them during the meeting and other interesting additions to any program which may be locally arranged. He understands the business of such gatherings and will, more than likely put the association well and fully on its feet this evening.

The Chautauqua will be held at Wallace park, as no place about the city is so suitably situated in all respects. It will take room to accommodate the people and the park will furnish this room. The grounds will be suitably prepared for the gathering, which is certain to assemble during the continuance of the meeting.

Rev. George H. Crutcher, of Dyersburg, Tenn., is expected in the city tomorrow. He comes by invitation to preach at the First Baptist church on Sunday.

Line of high grade Oxfords in all leathers

MONDAY MORNING you will be in the midst of the greatest Suit Sale ever given in Paducah. We are going to have a sale—a sale that means a great deal to any buyer who is fortunate enough to get to it—a sale that comprises values of importance. The prices have been so arranged on all our suits that when seen in Sunday's papers it will appear really shocking. Monday morning is when we start our suit clearance, and watch closely the values we will offer.

Broadway PADUCAH Broadway

LOCAL LINES.

—See Riley & Cook's for real bargains in photos.

—The steamer George Cowling leaves for Metropolis Sunday, April 22, at 9:30 a. m. and 2 p. m. Round trip 25 cents.

—One dozen fine platinum pictures at Riley & Cook's, \$5.00 per dozen.

—The big plate glass for the east Broadway window, of the Fraternity building, arrived this morning and is being fitted today. The window was broken by the fire in the Jennings & Walters office last week.

—Don't forget the steamer George Cowling's trips to Metropolis Sunday, April 22, leaving wharf at 9:30 a. m. and 2 p. m. Round trip 25 cents.

—Master Walton Hicks, son of Dr. R. A. Hicks, is disabled, the result of a fall from the fence. He is not seriously hurt.

—Fresh celery and asparagus Edgewood Garden stand No. 23, Broadway end Market house.

—Prices cut on all sizes and styles of photos, Riley & Cook's.

—The Sycamore, 98 tons, the property of the Paducah Furniture Manufacturing company, was today sold to the Johnson Construction company, of Nashville, Tenn., for \$2,500, the bill of sale being filed this afternoon.

—Georgia M. Holliday was today appointed administratrix of the estate of the late Charlie Holliday.

—Robert, the two months' old son of Mr. L. J. McManus, of the Benton road, died of croup, this morning. The funeral will be held at Sandy Hill cemetery, Graves county, tomorrow.

—Supt. Keebler, of the city power house, is today working on street lines and poles. He is straightening poles and rewiring where necessary.

Why Not Eat What You Like?

Dr. Woods Hutchinson in McClure's takes a full out of the dietetic fads in showing that instinct is a better guide to diet than faulty reasoning. Here are some of his conclusions condensed:

Men should eat what they like, and a good deal of it. "Given our age, sex, size, horse-power and the work to be done, the suitable fuel is only a question of cost and accessibility."

Fish is no richer in phosphorus than many other foods. Even if it were it would not therefore be "good for the brain," as some suppose.

Spices do not "heat the blood." That notion confounds the "hot" taste with actual heat. Spices are antiseptic. The Egyptians preserved mummies in spices. In tropical countries people eat more spices than in cold ones, and the diet does them good.

Pork is all right. It digests slowly, but that is an advantage. The more rapidly digested foods are not the most healthful. The digestive machinery must have work to do like the rest of the body.

Vegetarianism is "the diet of the enslaved, stagnant and conquered races;" a diet rich in meat is that of the dominant races.

Few people who eat much meat ever become consumptive. "Tuberculosis sweeps like a pestilence through the grass-and-grain eaters—cattle, antelopes, chickens, pheasants, turkeys—but is decidedly rare among meat-eaters—dogs, cats, tigers, lions, civets, badgers, hawks, eagles, crows."

Breakfast foods are well enough if you must have them, but "be sure and eat your breakfast first."

White bread "is the best, most healthful and most nutritious food which the sun has ever grown from the soil." Wars have always been fiercest for the possession of the great wheat-growing plains. No nation eats brown bread when it can get white. Instinct is here also correct. Whole wheat meal, or "gera-ham," contains more nitrogen than white, but the white has more "available" nitrogen.

"Mush makes a superb 'sour mash' in a weak stomach." "The tortures of the chronic dyspeptic are aggravated and in very many cases chiefly caused by the very foods which he takes for their cure." The chief value of "mush-and-milk" (meaning also other coarse cereal foods) is in the milk and sugar.

Eat slowly, eat what you like, what agrees with you and as much as you need, seems to be Dr. Hutchinson's idea.

People and Pleasant Events

Easter German At Jackson.

The Jackson Daily Sun says:

"Those who have been looking forward with such pleasant anticipation to the annual Easter German of the Lyndhurst club were not disappointed, for the ball Tuesday night was among the most pleasant and best attended given since the new club rooms were opened. Pretty Japanese umbrellas and fans were presented to the ladies as favors and when the grand march began, with over 40 couples taking part, all moving in time to the inspiring music of a full orchestra, and the beautiful toilettes worn all combined to present a scene of surpassing beauty. The German was led by Dr. George D. Hamilton with Miss Nell Robertson, and the dancing was prolonged until after 2 o'clock, delicious ice cream and cake being served at a suitable hour."

Among the out-of-town guests mentioned at the event were Misses Lillie May Winstead and Blanche Hills and Mr. Everett, of Paducah.

Delightful Lecture.

The lecture on "Rome," illustrated with stereopticon views, given last evening by Miss Susan Temple at the Grace church parish house, was a very delightful occasion, and was enjoyed by a representative audience. The views were personally collected by Miss Temple in her residence in Rome, and her description of the "Eternal City" was most attractively given.

Children's Hour.

There will be "Children's Hour" this afternoon from 4 to 5 o'clock at the Carnegie library. It will be in charge of Miss Aline Bagby, who will tell of the children that Charles Dickens has made famous, in a most attractive way.

U. D. C. to Meet.

There will be a called meeting of the local U. D. C. chapter Saturday afternoon at 5 o'clock, with the president, Mrs. Joseph Thompson, on Jefferson street. Important business is before the chapter.

Card Party to Visitor.

Miss Faith Langstaff will entertain this evening at her home on Kentucky avenue in honor of her guest, Miss Gardner, of Quogue, L. I., and of Miss Scott, of Clarksdale, Miss., who is visiting the Misses Decker.

Mr. George Marable, of Detroit, Mich., is visiting in the city.

Col. J. L. Kilgore has returned from Anderson, Ind., to wind up his business. He will then leave for Anderson, preparatory to a tour of Europe this summer.

Prof. Harry Gilbert and Miss Mollie Gardner returned last evening from Paris, Tenn., where they spent the day.

Rev. D. C. Wright went to Metropolis yesterday to hold services there last night and this morning. He returned home this afternoon.

Mr. Guy Johnston, a prominent furnace man of Clarksville, Tenn., is at the Palmer house.

Mr. Charlie Thompson, the well known ship carpenter of the Marine Ways company, is confined to his bed with severe bruises, the result of a fall at the ways this week.

City Attorney Knight, of Hopkinsville, is in the city on professional business, the guest of City Attorney Thos. Harrison.

Mr. Harry Watts, of Chanute, Kansas, is visiting his aunt, Mrs. Arvie Bagby, near Paducah.

Attorney G. C. Dinguid went to Murray this afternoon on professional business.

Mr. James Smith and wife returned from Pass Christian, Miss., this morning.

Attorney L. K. Taylor will go to Fulton tonight on business.

Mr. Herman King, of Los Angeles, Cal., is in the city, the guest of his uncle, Mr. John Wacker, of Myers street.

Mr. P. G. Kern, superintendent of the Southern division of the American District Telegraph Co., is in the city. His headquarters are at Atlanta, Ga., and he is en route to Louisville. He will leave tonight for that city.

Mrs. I. H. Brake and daughters are visiting in Bardwell, Ky.

Miss Mary Mohan yesterday went to Dayton, O., to visit her sister, Mrs. T. A. Gould.

Miss Etelle Gossett, of Kuttawa, and Mr. Robert Williams, of Princeton, Ky., passed through here yesterday en route to Paris, Tenn., to be married.

Mrs. Mary Austin, of Cairo, Ill., is visiting here.

Justice J. H. Fisher, of Columbus, Ky., returned home yesterday after conferring with McCracken county officials relative to road building.

Messrs. Walter and Henry Pierce, of Golconda, passed through Paducah yesterday en route home from Cairo where they were called on business.

Mr. George Boos, Jr., of Golconda, was in the city yesterday.

Col. Chas. Reed, of The Palmer, returned from Chicago last night.

Mr. James E. Brady, of Cincinnati, was in the city last night, the guest of Officer Aaron Hurley. He is traveling for a sewer pipe manufacturing concern.

Railroad Commissioner Mac D. Ferguson, of La Center, arrived in the city yesterday.

Mrs. J. W. Williamson, of St. Louis, arrived last evening and is the guest of her sister, Mrs. M. B. Nash, at the Sans Souci Flats on North Ninth street.

Mr. and Mrs. M. Roos, of Mayfield, are visiting Mrs. M. A. Byrd, of Kentucky avenue.

Mr. George Barkley is spending a few days with friends and relatives in Mayfield.

Miss Crutney Cathey, of Mayfield, is here to spend several weeks among friends.

Mr. Edward O. Leigh, private secretary to Gov. Beckham, is in the city to spend a day or two.

WILL SUE FOR WAGES.

Detectives Baker and Moore to Test Their Removal by Council.

Detectives Moore and Baker, who were laid off by the police commissioners who acted pursuant to the provisions of a city ordinance cutting the police force, this morning received checks for \$18, nine days' work for this month. They stated that they had reported each morning for duty but had been assigned no work, and would institute suit for their wages just the same.

From indications the detectives will force the city into litigation over the passage of the ordinance.

Will Go to Zion City.

Chicago, April 20.—John Alexander Dowie expects to go to Zion City tomorrow under the protection of the courts, which granted him an injunction to this effect. His followers expect a grand reception but Voliva and other seceders said Dowie's coming will prove a farce so far as a rally reception is concerned. Dowie expects to preach in the Zion church Sunday.

The City Court.

In the city court the case against Georgia Jackson, colored, for maliciously cutting George Polk, colored, was dismissed this morning and Polk fined \$20 and costs for a breach of the peace.

The evidence developed the fact that the Polk negro struck the woman several times, and that she pulled out a pocket knife and cut his throat to defend herself.

Other cases were: Ed Vasseur, dismissed, and Mamie Dolan fined \$1 and costs for a breach of the peace. They are white.

The Louisiana Sued. Deputy U. S. Marshal Wade Brown this morning served a summons on the steamer Louisiana, lying at the docks. James Simpson and Frank Crane, seamen, claimed wages amounting to \$3 due them. The boat officers promptly paid the amount and the boat was not tied up.

Another Escape Attempted.

J. T. Norfleet, who is in jail pending action of the court in an indictment charging him with passing worthless checks, hid behind the bath tub in the jail corridor several nights ago but was detected by the turnkey and placed in his cell. It is presumed he was hiding until after the prisoners were locked in their cells, and intended to make his escape. Norfleet broke and ran out of the jail once before, but was recaptured within a few days after the escape.

Named a Commissioner.

Rev. Dr. W. E. Cave, of the First Presbyterian church, was named by the recent meeting of the Paducah presbytery, held in Sturgis, as commissioner from the presbytery to the general assembly of the church, which is to meet in Greenville, N. C., on the 10th of May. Dr. Cave was unable, owing to indisposition, to attend the meeting of the presbytery and the appointment therefore comes as a double honor. Information of his selection as commissioner came to the honored gentleman by mail this morning.

SCHOOL BOARD MEETS.

Offers From Real Estate Men Turned Down Last Night.

The school board met in special session last night to hear a report from a special committee to which the matter of selling the Longfellow school property, at Fifth and Kentucky avenue, was referred.

The committee presented two propositions, one from Caldwell & Holt for \$22,500, the real estate dealers to get \$500 as a commission for selling, and another from E. W. Whittemore, who bid \$23,000, to get a 2 1/2 per cent commission.

Both propositions were voted down, the board being inclined to believe that \$25,000 can be gotten. The property is valued much higher.

The Only Known Repudiation.

The only known instance of the repudiation of its securities by the United States is in the case of postage stamps issued prior to 1860. Stamps of the issue of 1847, 1851 and 1857 are not receivable for postal purposes neither will they be redeemed by the government.

However, this action of the government need occasion no apprehension on the part of those citizens who hold unused stamps issued prior to 1861. The postoffice officials would decline to permit the use of a 5-cent stamp of the issue of 1847, but a stamp dealer will pay \$50 for an unused copy of the stamp. He would pay \$50 for unused copies of the 1-cent stamp of 1851, \$150 for the 24-cent stamp and \$20 for the 30-cent stamp of the same issue, all unused and with the original gum. Without the gum the stamps are worth slightly less.

A Young Mother At 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood, and cures Malaria, Biliousness and Weaknesses. Wonderful Nerve Tonic. Price 50c. Guaranteed by McPherson's Drug Store.

Glass Worth More Than Gold.

When is glass worth more than gold? When it is the lens of a microscope. The record increase in value of the manufactured article over the raw material is probably made by this variety of glass, which multiplies itself 50,000,000 times. The front lens of a micro-objective costing about .0017 of a gramme, hence the value of such lenses to the weight of a kilogram would be about \$3,000,000. The cost of making this weight of glass is three to six cents, and thus when worked up into the shape of a lens the glass has increased in value about 50,000,000 times.

Danger From the Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs, and Colds. Mrs. Geo. Wallis of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures La Grippe gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. 50c and \$1.00. Guaranteed by McPherson's Drug Store. Trial bottle free.

Big Excursion Crowds.

The Island Queen excursions, given under the auspices of the local lodge of Elks, were well patronized yesterday.

The afternoon excursion left Paducah about 3 o'clock and went to Metropolis. A large crowd of Metropolis people were taken on and brought here to remain until 8:30 when the boat left with 1100 excursionists to Metropolis on return trip. The excursions were successful both financially and otherwise.

A Badly Burned Girl.

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Topeka, Mich., says: "I use it in my family for cuts, sores and all skin injuries, and find it perfect." Quickest Pile cure known. Best healing salve made. 25c at McPherson's Drug Store.

Blood Poisoning.

results from chronic constipation, which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by McPherson's Drug Store.

The Texas Wonder

A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

Copyright by Lothrop Publishing Company.

"I shall be delighted, Mr. Bines, to have a long, friendly chat. I'll send my cloak back, and you take your own time. There now, do be right comfortable!"

The old man settled himself and bestowed upon his hostess a long look of approval.

"The reports never done you justice, Mrs. Wybert, and they were very glowing reports, too."

"You're very kind, Mr. Bines, awfully good of you!"

"I'm going to be a little bit confidential—right out in the straight open with you."

"I am sure of that."

"And if you want to, you can be the same with me. I ain't ever held anything against you, and maybe now I can do you a favor."

"It's right good of you to say so."

"Now, look here, ma'am, let's you and me get right down to cases about this society game here in New York."

Mrs. Wybert laughed charmingly and relaxed in manner.

"I'm with you, Mr. Bines. What about it, now?"

"Now don't get suspicious, and tell me to mind my own business when I ask you questions."

"I couldn't be suspicious of you—really I feel as if I'd have to tell you everything you asked me, some way."

"Well, there's been some talk of your marrying that young Milbrey. Now tell me the inside of it."

She looked at the old man closely. Her intuition confirmed his own protestations of friendliness.

"I don't mind telling you in strict confidence, there was talk of marriage, and his people, all but the sister, encouraged it. Then after she was engaged to Shepler they talked him out of it. Now that's the whole God's truth, if it does you any good."

"If you had married him you'd 'a' had a position, like they say here, right away."

"Oh, dear, yes! awfully swaggar people—dead swell, every one of them. There's no doubt about that."

"Exactly; and there ain't really any reason why you can't be somebody here."

"Well, between you and I, Mr. Bines, I can play the part as well as a whole lot of these women here. I don't want to talk, of course, but—well!"

"Exactly, you can give half of 'em cards and spades and both casinos, Mrs. Wybert."

"And I'll do it yet. I'm not through by any means. They're not the only perfectly elegant people in this town!"

"Of course you'll do it, and you would do it better if you had three or four times the stake you got."

"Dollars are worth more apiece in New York than any 'town I've ever been in."

"Mrs. Wybert, I can put you right square into a good thing, and I'm going to do it. Heard anything about Consolidated Copper?"

"I've heard something big was doing in it; but nobody seems to know for certain. My broker is afraid of it."

"Very well. Now you do as I tell you, and you can clean up a big lot inside of the next two months. If you do as I tell you, mind, no matter what you hear, and if you don't talk."

Mrs. Wybert meditated.

"Mr. Bines, I'm—it's natural that I'm a little uneasy. Why should you want to see me do well, after our little affair? Now, out with it! What are you trying to do with me? What do you expect me to do for you? Get down to cases yourself, Mr. Bines!"

"I will, ma'am, in a few words. My granddaughter, you may have heard, is engaged to an Englishman. He's next thing to broke, but he's got a title coming. Naturally he's looking for money. Naturally he don't care for the girl. But I'm afraid she's infatuated with him. Now then, if he had a chance at some one with more money than she's got, why, naturally, he'd jump at it."

"Aren't you a little bit wild?"

"Not a little bit. He saw you at Newport last summer, and he's seen you here. He was tearing the adjectives up telling me about you the other night, not knowing, you understand, that I'd ever heard tell of you before. You could marry him in a jiffy if you follow my directions."

"But your granddaughter has a fortune."

"You'll have as much if you play this the way I tell you. And you never can tell in these times—she might lose a good bit of hers."

"It's very peculiar, Mr. Bines—your proposition."

"Look at what a brilliant match it would be for you. Why, you'd be Lady Casselthorpe, with dukes and counts takin' off their crowns to you. And that other one—that Milbrey—from all I hear he's lighter'n cork—cut his galluses and he'd go right up into the sky. He ain't got anything but his good family and a thirst."

"I see. This Mauburn isn't good enough for your family, but you reckon he's good enough for me? Is that it, now?"

"Come, Mrs. Wybert, let's be broad. That's the game you like, and I don't criticize you for it. It's a good game if that's the kind of a game you're huntin' for. And you can play it better'n my granddaughter. She wa'n't meant for it—and I'd rather have her marry an American, anyhow. Now you like it, and you got beauty—only you need more money. I'll put you in

the way of it, and you can cut out my granddaughter."

"I must think about it. Suppose I plunge in copper, and your tip isn't straight. I've seen hard times, Mr. Bines, in my life. I haven't always worn sealskin and diamonds."

"Mrs. Wybert, you was in Montana long enough to know how I stand there?"

"I know you're A 1, and your word's as good as another man's money. I don't question your good intentions."

"It's my judgment, hey? Now, look here, I won't tell you what I know and how I know it, but you can take my word that I know I do know. You plunge in copper right off, without saying a word to anybody or makin' any splurge, and here—"

From the little table at his elbow he picked up the card that had announced him and drew out his pencil.

"You said my word was as good as another man's money. Now I'm going to write on this card just what you have to do, and you're to follow directions, no matter what you hear about other people doing. There'll be all sorts of reports about that stock, but you follow my directions."

He wrote on the back of the card with his pencil.

"Consolidated Copper, remember—and now I'm a-goin' to write something else under them directions."

"Do this up to the limit of your capital and I will make good anything

"YOU THINK IT OVER."

you lose." There, Mrs. Wybert, I've signed that "Peter Bines." That card wouldn't be worth a red apple in a court of law, but you know me, and you know it's good for every penny you lose."

"Really, Mr. Bines, you half-way persuade me. I'll certainly try the copper play—and about the other—well—we'll see; I don't promise, mind you!"

"You think over it. I'm sure you'll like the idea—think of bein' in that great nobility, and bein' around them palaces with their dukes and counts. Think how these same New York women will meach to you then!"

The old man rose.

(To be Continued.)

Biggs—"Who was it that said, 'Man, know thyself'?" Diggs—"Oh, some chap with a good but impracticable theory." Biggs—"Why do you call it impracticable?" Diggs—"Because no man can find out personally that he is afflicted with the habit of snoring."—Chicago Daily News.

Heart Like a Clock

The pulsation of the heart marks the passage of the blood through the veins, just as the ticking of a clock indicates the flight of moments of time. Palpitation, fluttering or irregular action reveals the fact that the heart is running down—and unless strengthened, is liable to stop at any time under some weakening influence, such as excitement, over-work, or intense mental or physical strain. To regulate the heart action, you should take Dr. Miles' Heart Cure when any symptoms of a weak heart is apparent. It has no equal.

"Sometime ago I had a very severe pain around my heart, and most of the time I had a heavy beating or throbbing of the heart. It would beat so that when I lay down at night it would sound like a small clock in bed with me. I could count the ticking. With every little exercise, or walking I felt like my heart would give out, and I would be so tired I would have to lie down and rest. I suffered quite a while in this way, then I concluded to try Dr. Miles' Heart Cure. I had not taken it long until I began to feel easier, and so continued, and the medicine entirely cured me. I am very grateful for the great good I received from Dr. Miles' Heart Cure."

JOSEPH BROADHEAD, Findlay, Illinois.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

THE STATEHOOD BILL

It Will Be Up Again in Senate in a Few Days.

Washington, April 20.—Senator Beveridge and Representative Brick, of Indiana have returned from the republican convention of their state and arrangements have been made for another conference on the statehood bill. It is expected that the next meeting will be today or tomorrow. There is less hope of an agreement now than when the bill was first in conference. At that time it was thought that the house conferees might agree upon a proposition to submit the jointure proposition of New Mexico and Arizona to the people of each territory separately, but at the time the vote was taken on the constitution of the proposed new state. The Foraker proposition which was voted into the bill before Arizona and New Mexico was eliminated provided that there should be a separate election for deciding the question of joint statehood. Inquiry among senators who supported the Foraker amendment has developed the fact that they are rather tenacious for the last amendment and insist on a separate vote. The house conferees seem more disposed to stand for their original bill than before, which would mean no agreement.

HEALTH IS YOUTH.

Disease and Sickness Bring Old Age.

Herbine, taken every morning before breakfast will keep you in robust health, fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever skin, liver and kidney complaints. It purifies the blood and clears the complexion.

Mrs. D. W. Smith, Whitney, Tex., writes April 3, 1902: "I have used Herbine and find it the best medicine for constipation and liver troubles. It does all you claim for it."

I can highly recommend it. 50c. Sold by Alvey & List.

A Dandy for Burns.

Dr. Bergin Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns. Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and \$1.00. Sold by Alvey & List.

More Civil Service Examinations.

This summer promises to be one conspicuous for the great number of civil service examinations. Already examinations for several dozen different branches in the service have been authorized, and still they come. This morning notification of two more examinations was received. They are for saddler, in the quartermaster's department at large, for May 23. The other is for assistant in the Philippine service, for May 23 and 24. The examinations will be held at the postoffice on those dates.

Ballard's Horehound Syrup.

Immediately relieves hoarse croupy cough; oppressed, rattling rasping and difficult breathing. Henry C. Stearns, druggist, Shullsburg, Wis., writes, May 20, 1902: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it. 25c, 50c and \$1.00. Sold by Alvey & List."

Henpecked: The prisoner had broken in on the witnesses several times, and the judge had reprimanded him repeatedly. Finally the judge exclaimed: "Look here, my man, do you want to keep us here all day?" "Well, judge," replied the man, resignedly, "I might as well be here as at home, I suppose. I'm not allowed to say anything at home, either!"—Yonkers Statesman.

JEWELRY

that will charm and delight the judge of fine gems. Rings, Brooches, Ornamental Combs, Chains, Bracelets, etc.

WATCHES

for Ladies and Gentlemen, in gold, silver or gunmetal. Cigarette Cases, Match Boxes, Cigar Cutters, etc. All sorts of dainty pieces of silver for my "lady's" dressing table.

WARREN & WARREN.

This Beautiful Piano GOES SATURDAY, APRIL 21st

Don't cost a penny to make a bid. The name of purchaser and the price will be published Saturday evening. You will be sorry you did not make a bid when you see this beautiful \$500 piano go at \$75 or \$100. A club or society should not let this opportunity pass. Seal your bids and leave them at 428 Broadway,

Child Burned to Death.

Fulton, Ky., April 20.—Zettie, the pretty little six year old daughter of Mr. and Mrs. J. F. Burnes, was burned to death Tuesday at the family residence near Chapel Hill. The terrible accident occurred in the morning in the presence of the child's mother, who though ill herself, did all she could to save her.

CIRCUIT COURT

JUDGE REED HELD SESSION AFTER TWO DAYS' RECESS.

Grand Jury Returns a Number of Indictments and Judge Sentences Some Convicts.

Judge W. M. Reed this morning convened circuit court after a suspension of two days, and received a report from the grand jury. The grand jury returned 17 indictments, all of which are withheld from publication except four. The grand jury will likely finish business by 5 o'clock this afternoon and will doubtless be discharged.

The indictments given out are "jail cases" where defendants are before the court. They are: One is against Ed Cloonan, white, for maliciously cutting Harry S. Allen. One is against William Hickman, white, of Owensboro, for obtaining money by false pretenses. He is alleged to have stolen a pistol and sold it. He was released on a \$200 bond. Mr. T. C. Leach becoming surety. One is against Robert Greer, colored, for obtaining property by false pretenses. He was a "trustee" serving a term in jail, and secured groceries from Blederman's alleging he had been sent there by Jailer Baker when he had not. One is against Will Jackson and J. A. Donovan, white, for robbing Walter Timmons, a boy, of \$3 at the point of a pistol. This case is to be tried during the special term of court to be held in June.

The minutes of the examining court in the case of R. E. Draftin, white, charged with obtaining money by false pretenses, by selling brass belonging to the I. C., were returned marked "dismissed."

The following prisoners convicted during the present term of court were sentenced: Clarence Powers, colored, life sentence for murder; Rufus Bronson, colored, 17 year sentence for murder; John Alexander, colored, 1 year for malicious cutting; Geo. Dozier, colored, 3 years for malicious striking; Tom Albritton and Isom Scott, colored boys, 2 years in reform school for selling stolen copper wire.

Robert Grear, colored, this morning pleaded guilty of obtaining money by false pretenses and was given one year in the penitentiary.

Tent Overflowing.

The tent has not proved sufficient to accommodate the great crowds at the second Baptist revival services. Sunday night crowds always being the largest, Rev. E. B. Farrar has arranged on next Sunday evening to address a mass meeting of men only in the tent, while the service will be conducted for women in the church. His subject will be an illustrated talk on "Wages." All union men are cordially invited to attend and reserve seats will be kept for them.

There was much interest at the services last evening. Mr. Farrar preached a strong sermon and there were four additions to the church.

MERRILY BOILS THE MEDICAL POT

Allopath, Homeopath, Osteopath, Each Points the Only Path to Health, Christian Science and Physical Culture Add Interest to the Fight.

Each one right in some things; each wrong in others. Such is the best judgment on the present fight between the various schools and creeds for the cure of human ills.

Out of it all mankind will be the gainer, because medicine in the future is going to practice common sense, and with common sense, as the way to good health all strong harmful drugs could be thrown into the sea, greatly to the benefit of man and only damaging to the fishes.

The best specialists of the present time have discarded their drugs and are using only three or four specifics in the treatment of diseases. Why? Because they now know that nine-tenths of all chronic diseases come from the same cause—uric acid.

Uric acid is always present in the blood. It settles in various parts of the body, disease results. If it settles in the joints or muscles it causes rheumatism and lumbago, in the heart, heart disease, in the stomach, stomach trouble.

To cure disease the uric acid must be driven out. LIFE PLANT dissolves uric acid and forces it out of the body and therefore cures all uric acid diseases.

LIFE PLANT is not a drug, but a natural common sense medicine that cures by removing the cause. It cleans but and tones up the system—purifies the blood, strengthens the heart, stomach and kidneys and builds up a sound body.

If you have any uric acid disease and believe that the common sense way to cure it is to remove the cause—take LIFE PLANT. Your druggist sells it. Write to the LIFE PLANT COMPANY, Canton, O., for medical advice and valuable booklet on Good Health. It is free to write us today.

SAN FRANCISCO IS BUT AN ASH HEAP

Ame of Misery Reached And Town is Desolate.

Man, in An Uneven Struggle, Yields to the Conquering Elements of Nature.

THE CITY TO RISE AGAIN

San Francisco, April 20.—Surrounding a lofty pinnacle of flame licking up the Hotel Fairmount, as far as the eye can see, lay in curled fantastic heaps, charred and smoking, all that remains of a prosperous city.

The Metropolis of the western slope is in ashes.

New York, April 20.—William H. Baker, vice president and general manager of the Postal Telegraph Co., at 10:30 last night received the following from the deputy chief of the San Francisco fire department:

"At 7:30 tonight the fire is still under headway, gathering force, and spreading. Two-thirds of the business section is devastated. The fire is heading for the residential district. Efforts to fight the flames are futile. Three hundred thousand will be homeless tonight.

By Saturday San Francisco will be an ash heap."

San Francisco, April 20.—San Francisco is a city desolate. It seemed that the acme of its misery was reached at dusk when the flames burst from all sides of the beautiful Hotel Fairmont, the palace that above every other structure was apparently the most strongly entrenched against the attack of the all-consuming fire. And surrounding that lofty pinnacle of flame, as far as the eyes could see, lay in curled, fantastic heaps, charred and smoking, all that remained of a prosperous city. The metropolis of the western slope is in ashes.

In another day of an uneven struggle of man against the unconquerable element of nature, man had lost. Acre after acre has been ground into dust and ashes, despite the heroic perseverance of the firemen to limit the conflagration.

City Not Discouraged.

But San Francisco is not discouraged.

Its best, and highest class has already begun to plan for the restoration and to care for the stricken and relief will be immediate and effective. Total subscriptions of \$180,000 were announced last night.

Arrangements are being rapidly made for the immediate relief of the needy.

The baking of 50,000 loaves of bread daily begun today.

Free transportation is provided by the Southern Pacific railroad to the suffering.

It is announced that there is to be a daily delivery into the city of ten million gallons of water.

Tonight for the first time direct telegraphic communication was re-established with the outside world. By the most energetic efforts in the face of great obstacles the Postal Telegraph company succeeded in restoring one of its shattered lines and its managers are hopeful of bringing back its service to a normal plane in a day or two.

Last night three distinct fires were burning. One portion extends from Nob Hill easterly towards the water front. It was traveling slowly northward towards the Telegraph Hill section. The second center was in the Mission district, and was making little headway toward the Hill sides to the west where thousands of people are camped. The third is threatening the western section, the point against which the firemen are bending their greatest efforts.

RIVER NEWS

The river fell 1.2 last night, the gauge today registering 29.

The Dick Fowler had a good passenger and freight trip for Cairo today.

The Joe Fowler was the Evansville packet today and had good trips both ways.

The Kentucky came out of the Tennessee river today and returns tomorrow afternoon.

The Electra was at the wharf for a while this morning, en route to Evansville from Nashville.

The Georgia Lee from Memphis for Cincinnati is due some time tomorrow.

Both Are Doing Well.

Mayor Yeiser and Pro Tem Mayor Starks, both of whom are confined at home because of illness, are today said to be doing well. Dr. Yeiser was yesterday thought not to be so well, but he was able to sit up today and was only feeling the effects of considerable fatigue. Mr. Starks is rallying from the results of a slight operation. The gentlemen promise to be on the streets in a few days, much to the delight of their hosts of friends.

SCIENTISTS ON THE EARTHQUAKE

They Are Widely Apart In Their Opinions.

One Says the San Francisco Disaster Had for a Long Time Been Expected.

WORST IN COUNTRY'S HISTORY.

Madison, Wis., April 20.—President Charles R. Van Hise of the University of Wisconsin, one of the best known geologists in the country, formerly of the United States Geological Survey, says a disaster at San Francisco has long been expected by scientists. In a signed statement he says:

"Scientists have known for many years that San Francisco is dangerously located and would probably sooner or later be subjected to severe shocks. The fear has been repeatedly expressed that San Francisco would be the first to show the effect of an earthquake upon steel structures, for it has been well understood that San Francisco has the most dangerous location with reference to earthquakes of any large city in the United States."

Prof. Tarr's Views.

New York, April 20.—The Times prints a statement from Prof. Ralph Stockman Tarr, professor of dynamic geology and physical geography at Cornell University, on the subject of the San Francisco earthquake. Prof. Tarr was formerly connected with the United States Geological Survey and the Smithsonian Institution at Washington. He is considered an authority on seismic disturbances. He says:

"It is too early to express a final opinion upon the nature and cause of the San Francisco earthquake, but from what has been said it has been seen that probably this shock is the result from movements along one or more fault lines in the course of the natural growth of the coast ranges, which geologists have long known to be still in progress throughout the entire extent of California. That the coast ranges are growing is proved by numerous evidences. There are upraised shore lines at various points along the California coast, proving recent uplift. The very bay of San Francisco is the result of a geologically recent subsidence of this part of the coast, which has admitted the sea into the gorge that the Sacramento river formerly cut across the coast ranges. This forms the Golden Gate, and in the broader mountain valley behind the sea has spread out to form the bay.

"Whether the center of the great disturbance of the present shock is in or near the city cannot yet be told, though the meager reports so far received indicate this. If it is, San Francisco is in danger of future disasters."

Peril to Coast Is Great.

Philadelphia, April 20.—That Mt. Tacoma is responsible for the San Francisco disaster and that Vesuvius has nothing to do with it is the opinion of Dr. W. J. Holland, head of the Carnegie Institute, Pittsburgh, now here. He also says that the whole Pacific coast is quaky and in danger of subsiding into the Pacific. Private reports he has received from Mt. Tacoma, show, he says, that it has been in comparatively violent eruption. He said:

"The extreme western coast of the Americas is subject to almost continual oscillation. That coast line represents for the most part comparatively recent geological formation and there has been in recent geological times a great deal of uplifting and faulting. By faulting is meant the cracking of the earth's surface.

"There are a series of what might be called cracks in the earth's surface extending along the western coast line from Patagonia to Alaska. The stretch of earth between the mountain ranges and coast is constantly uplifting or sinking, and it is not impossible that it may all sink.

"The whole western coast is honey-combed with caverns and volcanoes. Not twenty years ago a volcano actually appeared in San Francisco bay. I think the peril of all that coast is great. Mt. Tacoma's eruption is tremendous, comparatively, and is enormously significant.

"There is the greatest connection between this earthquake and recent private reports which have come to me of volcanic activity on the part of Mt. Tacoma.

"I look for a period of tremendous and destructive volcanic activity."

Chicago May Suffer.

Chicago, April 20.—There are slight indications that Chicago may experience an earthquake within a few years, according to Prof. J. Paul Goode, of the University of Chicago geology faculty. The presence of certain species of rock in the earth inside or near the city limits, he believes, is an indication of a condition that might result in the dismantling of a portion of the city.

"There is no absolute geological proof that Chicago may have an earthquake in the next few years," Prof. Goode declared. "One can detect slight symptoms, however. Certain formations of certain kinds of

rock underneath Chicago might be taken as an indication. An earthquake is as simple as the breaking of a timber.

"I believe that the seat of disturbance at San Francisco was about seven miles below the surface of the earth. It was quite probable a slipping of the crust of the earth. Generally one block of crust slips up while the other slips down. The focus of the disturbance may be noted by the direction of the cracks in the wrecked buildings.

"The Sierra Madre mountains are young and are growing slowly and no doubt their growing was the cause of the earthquake."

May Be Due to the Moon.

St. Louis, April 20.—Father C. J. Borgmeyer, professor of geology and associate professor of astronomy at St. Louis university, made the following statement as to the causes and probable duration of the earthquake in San Francisco:

"The whole of California is subject frequently to earthquakes. They come unexpectedly and are usually of short duration. The earthquake and tidal wave which worked such havoc to San Francisco were due to disturbances in the bed of the Rocky mountains, or possibly to the moon, which, in the course of its path across the heavens, draws the sea toward itself.

"Nothing can be told as to the length of the present disturbances. They may cease at once, but, on the other hand, they have been known to continue for three months or even longer. There is absolutely no danger of the shock which struck San Francisco ever reaching St. Louis. The first path of disturbance, which passes through the center of the earth's orbit, went through this section a few seconds after it was felt in California. This was registered by the delicate recording instruments in Washington. The secondary wave of disturbance, which takes its course over the crust of the earth, although it goes somewhat slower than the first, left St. Louis far in its rear early Wednesday afternoon."

CHARLESTON QUAKE

WAS FOLLOWED BY FIRE AND MANY LIVES WERE LOST.

Disturbance in September, 1886, Covered a Wide Stretch of Country.

The Charleston (S. C.) earthquake of 1886 still is remembered as one of the most terrible calamities ever known in the United States. The disturbance covered a tract of country extending from the Atlantic seaboard to the Mississippi valley, and from Lake Michigan to the heart of Alabama.

Charleston at that time was a city of 50,000 inhabitants. The city is built on beds of low, flat, sandy country, in regions of alluvial deposits. The earthquake selected Broad street, the leading thoroughfare, for its cruellest work. Shock after shock rent the city. Dwelling houses were forsaken in the night and the terrified people, half clothed and shivering with fear, sought refuge in the outlying country.

Fire added to the horrors of the scene, and negroes, superstitious and cowed by panic, were held to the spot by fear. Kneeling in the trembling streets they prayed. The damage to the city in the space of a few minutes' time ran up into millions of dollars, and many lives were lost.

For several days it was impossible for any help to reach the stricken city. Railroad tracks had been torn out of shape. Strange rifts and gulches had been torn in once familiar roads. The grumbling and rocking of the earth continued without intermission during thirty-six hours, and hundreds of men and women temporarily lost their reason.

It was the repeated manifestations of the phenomenon, which continued for many days, that caused a general demoralization of the inhabitants, more terrible to contemplate than the wrecking of thousands of buildings.

The earthquake occurred on a warm Tuesday evening early in September. By the following Friday there were occasional small tremblings of the earth, and the confidence of the inhabitants began to return. The dread which had pervaded all minds began to give place to a more wholesome mental condition, and activity to take the place of morbid listlessness. Women plucked up heart to soothe and quiet their terrified children, and men began to estimate their losses.

By 11 o'clock that night two-thirds of the people of Charleston, worn out by three nights of hardship and camping in the open air, had returned to their homes, when, suddenly there came a sound like a clap of thunder, and the earth was shaken from one end of the city to the other. People rushed from their dwellings, many to be struck down by a shower of plaster and bricks that fell from a hundred wrecked and cracked buildings. A fourth night of camping in the fields followed.

Finally, on Monday, September 6, the homeless people moved back to restore their shattered homes and fortunes and to bury their dead.

Willis Harman, of South Fourth street, has been removed to Riverside hospital for treatment for malaria fever.

Unconscious Beauty

(Original.)

There was once a king whose queen had been so vain of her beauty that he directed that their only child, a daughter, should be kept from seeing her own features as long as possible. The queen died when the little princess, Henrietta, was an infant, and the king placed the child in one of his palaces, where she was brought up in charge of her aunt, the Duchess Margaret. Not a mirror was permitted in the palace, and the king ordered the water in the artificial lakes and basins with which the spacious grounds abounded to be drawn off, for fear the princess should catch the reflection of her face. From time to time the duchess was required to make reports to the king concerning her charge.

"The princess is growing to be very beautiful," the duchess reported when Henrietta was sixteen years old, "and is absolutely unconscious of her charms."

"Tell her," replied the king, "that she is very homely."

The order was obeyed. The princess, who up to this point had not thought of her own appearance, was seized with a desire to see what she looked like, and the duchess was obliged to double the obstructions she had thrown in the way of her doing so, but in time Henrietta began to consider that the sight of her ugliness would only distress her, and she made a vow never to see a reflection of her face.

When she was twenty her father died suddenly, and she became queen. Those near her at once broke the secret of her beauty to her, but she would not believe them. "Now that I am queen you are all disposed to flatter me," she said, "and, though I be uglier than Medusa, you would make me believe I am beautiful as Venus." Her first edict was that any one being instrumental in showing her her features should at once be beheaded.

Many neighboring princes proposed for the hand of the queen, but she, believing in her ugliness, feared that when they came to see her they would be shocked, and she would listen to none of them.

Now, Queen Henrietta, having no strong minister to assist her in governing or to foil her enemies, soon became a prey to a coalition of kings who formed an alliance to invade her kingdom, conquer it and divide it among them. The queen did the best she could to stem the tide that set in against her; but, having no general on whom she could rely, her forces were beaten, and there was every prospect that her kingdom would soon belong to her covetous neighbors. For some time a young officer, Theodoros, had been rising through merit alone from one command to another, and at last the queen decided to appoint him her general in chief. She had never seen him—indeed, she knew nothing of him except what he had accomplished in her service.

Meanwhile she was so troubled about her affairs that she no longer dared risk being instrumental in showing her that she was beautiful instead of ugly, for in her present mood even the discovery that she had been mistaken might lead her to deal unmercifully with her inferior.

No sooner had the young general come to the supreme command than the tables were turned against the queen's enemies. In a series of battles in which he displayed not only great vigor and generalship, but personal bravery, he routed the armies of his foes, laid waste their own kingdoms and annexed them to the kingdom of his sovereign.

When the war was over great preparations were made at the capital to receive the victorious army. Even before his arrival the queen made Theodoros a prince, but this was only the beginning of the honors that were to be given him. He marched home with that portion of his army not needed to control the newly acquired kingdoms and rode at its head on its entry into the capital. The queen had directed that a throne be placed on the spacious elevation forming a front to her palace upon which to receive the young hero. For fear he might break the law in showing her her supposed ugliness and thus lose his head she sent him a copy of the edict embroidered on velvet. Upon his arrival at the palace he threw himself from his horse before the throne and was about to kneel at the queen's feet when he was startled at sight of her transcendent beauty. Then, instead of kneeling, he thrust his polished shield before her face. The effect was electrical. The queen gazed for a moment at her features, then, rising from her throne, knelt at her subject's feet.

"Be thou king," she said, "I am no longer worthy to be queen, for you have disobeyed my edict, and as your sovereign I should be obliged to behead you. That I cannot do."

Theodoros, raising her, led her back to the throne, then knelt before her. "Gracious queen," he said, "I am ready as ever to die in your service. In the field I served an unseen sovereign, facing death from a sense of duty. Now that I behold your august loveliness and have given you a sight of it, I am ready to pay the penalty. I await your majesty's executioner."

Then the queen ordered another throne to be brought, and amid the huzzas of the people ordered the prince she had created to sit upon it beside her and the heralds to proclaim him king, thus signifying her royal will that he should be her husband.

The reign of Theodoros and Henrietta was the most glorious that had ever taken place in the kingdom.

Country ham, hickory cured, per pound.....14c	

A GENUINE DOG FEAST.

Will Be Given As a Feature of the Carnival.

Chief of Police James Collins, who has been instructed by Mayor D. A. Yeiser and both municipal boards to at once begin taking up untaxed dogs, will be asked to begin the work at once, and to save every dog he catches for "Feast Day," which will be held in Paducah one day during carnival week. "Feast Day" promises to outdo anything in this line ever witnessed in Paducah, and it will be a very good opportunity to rid the city of dogs, and at the same time use the roving canines to some good.

The dogs will be eaten. They will be cooked and made palatable for the tribe of Philippine Igorrotes which will be a feature of the spring carnival beginning April 20.

The Carnival Association is preparing feature days and will set aside one day to be known as "School Children's Day," and the committee will petition the school board to dismiss at noon on that day to enable the school children to see the carnival at reduced prices.

Another day will be set aside for the news carriers and news sellers.

FELT IN ITALY.

Seismographs in the Observatory Record Distinct Earth Shocks.

Rome, April 20.—The seismographs in the observatory through out Italy Wednesday recorded distinct earth shocks. Those of the observatory at Florence, which has the most perfect instruments, indicated that an earthquake had been felt at a distance of over 7,000 miles. The shocks were so severe that they injured the instruments.

The Director of the Florence observatory is of the opinion that the earthquake in California, viewed in connection with the outbreak of Vesuvius and the earthquake in Calabria in September last, indicates the approach of further terrible convulsions.

King Victor Emmanuel was much impressed with the news from California, following so soon after the Calabria disaster and the eruption of Mt. Vesuvius. He said that no one can sympathize more than the Italians with the sufferers in and about San Francisco, adding that he felt most anxious for the thousands of Italian emigrants in California.
